SUMMARY

Results-driven UI/UX and Product Designer with hands-on experience in end-to-end product design, user research, interaction design, and design systems. Proven ability to translate complex business requirements into intuitive, scalable digital experiences through data-informed design decisions. Skilled in cross-functional collaboration, stakeholder communication, and agile design workflows — consistently delivering measurable improvements in usability, engagement, and development efficiency.

SKILLS

Product & UX Design: Product Thinking, Problem Framing, User Research, Information Architecture, User Journey Mapping, Wireframing, High-Fidelity UI Design, Usability Testing, Design Systems, Interaction Design, Accessibility Design

Design Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator

Technical & Collaboration: HTML, CSS (Working Knowledge), Developer Handoff, Stakeholder Collaboration, Agile / Cross-Functional Teamwork

EXPERIENCE

UI/UX Design Intern | *Mark & Spark Solutions, Pune*

Jan 2026 – Present

- Designed user flows, wireframes, and high-fidelity UI screens in Figma, improving task clarity by 30% based on internal review feedback.
- Applied usability principles and visual hierarchy best practices, reducing design iteration cycles by 25%.
- Collaborated with cross-functional teams to streamline design-to-development handoff, significantly improving handoff efficiency.
- Translated business requirements into structured, user-centered interfaces aligned with product goals.

Graphic Designer Intern | *EmptyCup (Remote)*

May 2025 – Aug 2025

- Created campaign creatives and visual content layouts, improving visual hierarchy and layout consistency to increase overall engagement by 35%.
- Refined content structure to enable better storytelling, resulting in a 25% increase in post interactions.
- Iterated designs based on performance insights, reducing content rejection and rework by 30%.

PROJECTS

PackPal – Smart Travel Packing App | End-to-End UI/UX Case Study | [View on Behance](#)

- Led the complete product design process from user research and problem framing to high-fidelity prototyping and usability validation.
- Delivered the full product design within a 6-week timeline, meeting 100% of planned milestones.
- Conducted usability testing with 10+ users, achieving an average satisfaction rating of 4/5.
- Reduced task completion errors and user confusion by 35% through iterative testing and design refinement.

PUBLICATIONS

Cognitive Load in AI-Augmented SaaS Dashboards: Design Patterns for Decision Fatigue Reduction

IJIRT, April 2026 | [ijirt.org/article?manuscript=199496](https://www.ijirt.org/article?manuscript=199496)

- Proposed the PACE Framework to systematically reduce cognitive load in AI-driven dashboard interfaces.
- Examined the impact of AI-generated information overload on decision fatigue within enterprise SaaS products.

EDUCATION

B.Sc. Animation and VFX

2023 – Present

Ajeenkya DY Patil University, Pune

CERTIFICATIONS & ACHIEVEMENTS

- UI/UX Design Certification – Beep Learning (Feb 2026)
- Full Stack Development (Java) – The Kiran Academy (Oct 2024)
- Fundamentals of Digital Marketing – Google (Aug 2022)
- Graphic Designing Certification – NNICE (Jul 2021)

- Scored 94/100 in PRT Design Assessment — ranked 1st in batch, outperforming all peers in a proctored, time-bound UX problem-solving test.
- Awarded for securing position through the institutional selection process.
