SUMMARY

UI/UX and Product Designer with a strong foundation in graphic design and hands-on experience across the end-to-end product design process, including user research, interaction design, prototyping, usability testing, and design systems. Skilled at transforming complex business requirements into intuitive, scalable digital experiences through user-centred and data-informed design decisions. Experienced in collaborating with cross-functional teams, communicating with stakeholders, and working within agile environments to deliver products that improve usability, user engagement, and development efficiency.

EXPERIENCE

UI/UX Design Intern | Mark & Spark Solutions, Pune

Jan 2026 – Present

- Design user flows, wireframes, and high-fidelity UI screens in Figma, increasing engagement by 35%.
- Design the end-to-end payment flow for a website, streamlining checkout and improving overall usability.
- Propose new website features aligned with business goals and user needs.
- Collaborate with developers on design handoff and maintain reusable UI components for design consistency.

Graphic Designer Intern | EmptyCup (Remote)

May 2025 – Aug 2025

- Created campaign creatives and visual content layouts, improving visual hierarchy and layout consistency to increase overall engagement by 40%.
- Refined content structure to enable better storytelling, resulting in a 25% increase in post interactions.
- Iterated designs based on performance insights, reducing content rejection and rework by 30%.

PROJECTS

PackPal – Smart Travel Packing App | End-to-End UI/UX Case Study | [View on Behance](#)

- Led the complete product design process from user research and problem framing to high-fidelity prototyping and usability validation.
- Delivered the full product design within a 6-week timeline, meeting 100% of planned milestones.
- Conducted usability testing with 10+ participants, identifying key usability issues that informed multiple design iterations..
- Reduced task completion errors and user confusion by 35% through iterative testing and design refinement.

PUBLICATIONS

Cognitive Load in AI-Augmented SaaS Dashboards: Design Patterns for Decision Fatigue Reduction

IJIRT, April 2026 | [ijirt.org/article?manuscript=199496](https://www.ijirt.org/article?manuscript=199496)

- Proposed the PACE Framework to systematically reduce cognitive load in AI-driven dashboard interfaces.
- Examined the impact of AI-generated information overload on decision fatigue within enterprise SaaS products.

SKILLS

Product & UX Design: Product Thinking, Problem Framing, User Research, Information Architecture, User Journey Mapping, Wireframing, High-Fidelity UI Design, Prototyping, Usability Testing, Design Systems, Interaction Design, Mobile Design, Responsive UI, Accessibility Design

Design Tools: Figma, FigJam, Framer, Adobe Photoshop, Adobe Illustrator, Adobe XD, HTML & CSS (Working Knowledge)

Collaboration & Process: Developer Handoff, Stakeholder Collaboration, Agile / Scrum Ceremonies, Cross-Functional Teamwork

EDUCATION

B.Sc. Animation and VFX

2023 – 2026

Ajeenkya DY Patil University, Pune

CERTIFICATIONS & ACHIEVEMENTS

- UI/UX Design Certification – Beep Learning (Feb 2026)
- Full Stack Development (Java) – The Kiran Academy (Oct 2024)
- Fundamentals of Digital Marketing – Google (Aug 2022)
- Graphic Designing Certification – NNICE (Jul 2021)
- Scored 94/100 in PRT Design Assessment — ranked 1st in batch, outperforming all peers in a proctored, time-bound UX problem-solving test.
- Awarded for securing a position through the institutional selection process.
